

Designing joyful, inclusive,
and sustainable play
experiences

Movement for every heartbeat

We don't just create playgrounds.
We design unforgettable experiences –
places that bring joy and inspiration for everybody.

At Lappset, our mission is to improve the well-being of the world by creating inspiring pla(y)ces that stretch the imagination, foster learning, respect nature, and encourage activity for all mankind. Lappset philosophy is to design outdoor recreational equipment, playgrounds, and parks that are always as socially inclusive as they are sustainable. Our dream is to strengthen the heartbeat of more than a billion people by 2030.

We are serious about play and movement!

Join the Lappset experience

We at Lappset have elevated our sustainable playgrounds into masterpieces, where every child's adventure is both enlightening and safe.

Lappset is one of the world's leading manufacturers of playgrounds and outdoor exercise equipment. We feel confident to call ourselves experts in moving people of all ages through play, sports, and exercise. For more than 50 years Lappset has been creating play and sports facilities around the world and acting as a global trendsetter in the field.

Passionate know-how from the happiest country* in the world

Lappset is a Finnish, Lapland-based family business. Learning and inclusiveness is in our DNA: we take inclusivity to heart with everything we design and create. Our products are always designed and manufactured in compliance with applicable safety standards. (*World Happiness Report 2023)

Your trusted long-term partner

Through deep expertise, we develop and deliver new concepts and methods to enjoy and bring the best innovations to users first. With our comprehensive maintenance services and stellar Nordic know-how, Lappset playgrounds and creative activity parks function comfortably and safely all year round.

Northern wood – naturally durable, safe and sustainable

The future is built on wood and we are the leading experts in wooden playground solutions.

Wood is an excellent material when creating unique playgrounds. It's an ecological, environmentally friendly, and renewable natural resource with a low carbon footprint. It has a natural and warm appearance, making playgrounds and outdoor furniture feel more inviting. Wood is also an ideal material from a design perspective, as it can be formed into many different shapes and can easily support both tall and heavy structures.

Please note that the products in the picture comply with EU safety standards. US products may differ.

Extreme Arctic durability

As an organic material, the Northern pine, *Pinus Sylvestris*, is well suited to a very broad range of climatic conditions, from harsh northern winters to the southern sun and humid coastal areas. In Finland it has always been exposed to the four dramatically changing seasons and challenging weather conditions that shift from one extreme to another.

In order to ensure the long life of our high-quality playground equipment, we use a closed process to treat our wood with safe and environmentally friendly preservatives.

Designed in accordance with European and **ASTM safety standards** and produced from PEFC™-certified Nordic pinewood as well as other carefully chosen safe materials, our products mirror the responsibility we carry as a family-owned company with firm roots in Finland's Lapland.

The frost may bite, and the sun may scorch, but the Northern pine will endure it all for decades to come.

Bespoke playgrounds – Unique playscapes

The most important thing to remember when planning a destination playground is to let imagination flow. Be wild, go crazy and have fun! We take care of the rest.

Unleash your wildest imagination and explore endless possibilities with Lappset's tailored solutions to create bespoke playgrounds and public areas. Lappset team helps you to design a unique playground according to your wishes.

Sculptural or themed design?

We offer two distinct design directions that will ignite your imagination and bring your project to life. **Sculptural design** integrates seamlessly with its architectural environment. Picture a structure that becomes a work of art, either as a landmark or by blending harmoniously with its surroundings.

We can also start from captivating a story, and making a **themed design** for those seeking an immersive adventure. Imagine stepping into a world of pirates, where every corner is a new chapter waiting to be explored.

Explore tailor-made concepts

This is what state-of-the-playful-art playscapes look and feel like.

Fun fact!

Lappset is a play on words. In Finnish, the word "lapset" means "children." The name combines "Lap-" from "Lapland" with "-set," which refers to a set of equipment.

Lappset Vertical Maze

Stand-out playgrounds in limited spaces

This creative solution has proven that playgrounds don't have to come at the expense of space - with a little bit of imagination, you can turn any limited area into an exciting adventure! The Vertical Maze "Tunturi" offers customization options, enabling customers to tailor it to their desired size and play functions.

Please note that the products in the picture comply with EU safety standards. US products may differ.

Vertical Maze in Paris, France

The School of Parmentier in Paris was looking to create a unique, stand-out playground in their limited space. The design team at Lappset came up with the creative solution; the Vertical Maze "Tunturi," a new modular wooden structure that fits perfectly into smaller spaces.

Karingal Hub in Karingal, Australia

Karingal Hub Happy Camp Vertical Maze provides an immersive puzzle of ups, downs and sideways movements, offering a multitude of pathways, challenges and adventures. It takes inspiration from the favorite game Snakes and Ladders and ensures varied experiences for all ages.

Flora – Durable nature play

The nature-inspired design of Flora playground equipment allows you to play in an exciting forest, even in a bustling city.

With natural playground equipment Flora, it's possible to create endless routes or just a little playground. The installation, maintenance, and changing of the spare parts of the Flora series could not be easier. It's cost-effective, safe, and long-lasting. Standard spare parts are quickly available and easy to install.

It can be a fun jungle out there!

Playground in New Jersey.

Magic Mountain

Magic Mountain is an exciting control center and a watchtower for the courageous and agile magicians. With the highest point reaching over 19 feet, it is also a stunning landmark.

However, not only magic will take the players up to the top floor. Instead, everyone can practice their climbing skills in many different ways to reach the intriguing "chambers" on multiple levels, and to enjoy the tube slide back down from the top!

Fell of Ara

Fell of Ara rises to over 16 feet and rewards the climbers with three stories. This equipment for climbing and imaginary play adapts from the witch's home mountain to a cozy farmhouse, depending on the players' needs. The children can go up, down and even round with the many exits and entrances.

Get enchanted
by all Flora designs

Play Planetarium
– An unparalleled play and learning space

The Play Planetarium is spacious enough to accommodate an entire school class at once. This dome-shaped, multifunctional play equipment is divided into eight sections, each featuring various climbing functions like nets, ladders, and climbing walls. Inside, children can explore the night sky as accurate stellar patterns are repeated on the dome, making it the ultimate experience for young explorers!

Lappset MyDesign – Personalized versions to meet your needs

Our MyDesign service helps you to introduce modifications to our standard products.

Suppose you're not creating a playground from scratch. In that case, our MyDesign service can assist you in adapting Lappset's pre-existing playground equipment to fit your requirements. Personalized versions of our standard playground products are versatile enough to suit all locations and settings!
